

## Consulting

At Advanced Fuels, we've amassed a wealth of experience in all aspects of gaseous fuels utilisation over the past 25 years. Whether you require an initial fleet assessment or whether you are looking for full project management to integrate gaseous fuels into your fleet, we have the experts on hand to meet your needs.

Our team can assess and implement vehicle conversions, refuelling requirements, training requirements and even fuel supply arrangements, leaving you to focus on the core aspects of fleet management.

Advanced Fuels has provided consulting and assessment services in countries such as India, China, Indonesia, Singapore, Thailand, Sri Lanka, the United Kingdom and, of course, Australia.

Through our own in-house experts as well as our affiliations with industry leaders in particular fields, Advanced Fuels is your key to advancing your fleet.
